A handsome cover of real lace was used on the pretty table, a silver basket filled with full-blown peach blossoms forming a centerpiece. Four silver candlesticks holding unshaded tapers of pink were placed at intervals; pink mints were served from silver compartments. A dainty sweet course was served by Mrs. Bruce Olliff, Mrs. G. P. Donaldson, Mrs. Barney Averitt and Mrs. Harry Smith. Mrs. George Groover and Mrs. D. Anderson ushered the guests to the living room where punch was served by Mrs. J. P. Foy and Mrs. Grady Johnston. POWER OF THE MINISTRY.

In his Sunday sermon the minister quoted somebody as saying that one inch added to the tail of every Chinaman's shirt would create a demand for all the cotton the South could produce. The next day when Jack Murphy saw the young man from the bank walk down the street with four yards of cotton goods in each pants leg, he commented on the wonderful power of the ministry.

VALUABLE PRIZES TO COTTON PRODUCERS

CONTEST OPEN TO EVERY FARMER IN GEORGIA WITH AN EVEN CHANCE TO WIN.

Athens, Ga. March 9.—Prizes totaling one thousand dollars to be awarded the farmers producing the largest yields of cotton on five acres this year were officially announced today by Dr. Andrew M. Scales, president of the State College of Agriculture. The supervision and direction of this contest will be in charge of Prof. E. C. Westbrook, cotton specialist. Correspondence relative to this contest should be directed to him. The first prize will amount to five hundred dollars, the second, two hundred and fifty dollars, third, one hundred and fifty dollars, and fourth one hundred dollars. The fertilizer manufacturers of Georgia are donating the money.

The object of the contest is to help in the improvement of the staple of cotton, and to encourage higher acre yields in the state, officials in charge of the contest stated. Poor quality of lint, and low production per acre are declared to be the greatest causes of losses to the cotton farmer and it is in an effort to correct these that the prizes are being offered.

The contest will be open to any farmer in the state, and five acres in one body must be cultivated in order for the contestant to be eligible for a prize. Simple but accurate records must be kept, and delivered to the county agent or person designated by the chairman of the county cotton club. Ready mixed fertilizer with a side application or top dressing as desired by the grower, are to be used.

The quality and length of staple will be tested by the cotton specialist of the State College of Agriculture from samples submitted by the producer.

Winners in the contest will be announced at the Farmers' Conference at the State College of Agriculture in January, 1927, and prizes awarded at that time.

Farmers may enroll now by making application to the county agent or vocational agricultural teacher, it was announced.

CONTEST RULES.

1. The contest shall be open to any farmer in Georgia.

2. There shall be a total of \$1,000 in state prizes awarded on the basis of largest yield of lint and net profit on five acres. 1st prize \$500, 2nd prize \$250, 3rd prize \$150, 4th prize \$100. These are in addition to any county prizes.

3. Contestant shall be a member of a county cotton club. Winners of the county contest shall be eligible for the state prizes.

4. Five acres shall be cultivated in cotton, all of the five acres to be in one field.

5. The five acres shall be measured by a local committee under the direction of the county agent or vocational agricultural teacher. In any counties that have no agricultural agent, the committee will be under the direction of agent in charge of the contest.

6. The committee shall make sworn statement as to the measurements of land.

7. Contestant shall use ready mixed fertilizer, plus such side application or top dressing as he may desire to use.

8. Contestant must keep an accurate record on his five acre cotton crop in a book furnished him for the purpose. At the end of season, this record after having been sworn to, shall be delivered to the county agent or vocational teacher, and a person in charge of the county contest will enter the record books to be delivered to the cotton specialist of the State College of Agriculture to be judged for the contest.

9. Each contestant after his cotton is ginned must submit commercial samples of his cotton properly drawn from both sides of each bale, accompanied by a tag containing his name and address and price received for the cotton to the county agent or other local agent in charge. These samples are to be delivered to the cotton specialist of the Georgia State College of Agriculture to be tested for quality and length of staple. The quality of the cotton and length of staple will be determined by a commercial cotton classifier.

10. Awards will be based on yield of lint 60 per cent, and net profit 40 per cent. The quality of the cotton and length of staple will be considered in determining net profit.

Suitable local prizes will be offered by business men of Bulloch county. All persons desiring to enter the contest are directed to send their applications to E. P. Josey, county agent, Statesboro, Ga.

Mrs. Dock Wilson, charged with assault and battery, was fined \$500 by a jury and was fined \$500 with an alternative of three months on the farm.

Mrs. Wilson's trouble was with Mrs. Curtis Southwell, wife of the landlord of the Wilsons, and grew out of a dispute over the pasturing of a cow.

According to the evidence in the case, Mrs. Southwell had placed two cows in the Wilson pasture, where, under the terms, the landlord and tenant were each entitled to pasture an equal number. At that time the Wilsons had one cow in the pasture, and Mrs. Wilson objected to the two cows of the Southwells.

A hair-pulling was followed by a considerable hand-to-hand fighting and both women went to the ground in the Wilson lane. Mrs. Wilson being uppermost. Mrs. Southwell's testimony was to the effect that Mrs. Wilson sat astride of her for fully fifteen minutes, she averred.

It seemed like a half hour. Four female witnesses to the affray, which occurred on a Sunday morning, kept safely in the background and viewed from a window in the Wilson home, each affirming, in response to attorney questioning, that she was none of his affair—discretion demanding that he, not having started it, should remain neutral in the battle.

Strong impetus for road and educational bonds was given by the speech of former United States Senator Smith before the constitutional amendment committee of the House and Senate when the former Senator declared that refusal to provide bonds for roads might mean withdrawal of federal aid, and that additional revenue from the increase from 25 to 80 per cent of the state's share of the federal inheritance tax would help raise the bonds.

Senator Smith's speech, widely discussed, was reflected in the belief that probably a large number of legislators would favor bonds as a result. The former senator brought to the attention of the legislators the new inheritance tax provision. He pointed out that both bond issues—highway and educational—could be retired and all interest charges without adding one cent to the burden of the regular tax payers of the state.

Senator Smith advocated an amendment to the constitution allowing future legislation to issue \$30,000,000 in bonds for highway purposes, stating that some such provision to provide through trunk highways was necessary if Georgia is to comply with the conditions under which federal aid for money for road building is allocated to this state.

CHRISTIAN ENDEAVOR.

The Southeast District of Georgia Christian Endeavor Convention will be held at Daisy, Ga., Saturday, 13th March.

A prominent field secretary will discuss the value of vital interest to the Christian Endeavor and give to those attending the conversion prayer.

These people know," Mr. Barrett said, "a stretch of bad road can be repaired, that good roads can be built by man, and will be, but the thing which makes home to them with the greatest force is that which God Almighty in His construction of nature provided this state with—most of it something which is not found in many other spots and some of it which does not exist in any other state in the Union.

Money Plentiful for Farm Loans

R. LEE MOORE, who has placed a great many loans for farmers in this county, says that money is offered him now in unlimited amounts for good farm loans. He says also that the rates are very reasonable. This ought to be encouraging to farmers of Bulloch County. For several years farm conditions have been such as to make farmers hesitate to borrow money. The outlook now is so satisfactory that no doubt many farmers will take advantage of the opportunity to get loans at reasonable rates and be in position to run their farms as they want to run them, or to make improvements, or to buy more land. COUNTY SCHOOL NEWS

When you school has made a month without having made the average required for two or three or more teachers, as the case may be, do not to ahead with more teachers than your average warrants. You have been well informed as to the required averages to enable you to hold any definite number of teachers.

The Bulloch County Teachers' Association met in regular monthly session on the 8th of this month. It was a very unfavorable day, but in spite of the cold and rain to be encountered, we had a good crowd present and a good program. Prof. E. V. Hollis, of the Georgia Normal, made a fine talk on the subject, "A Progressive Teacher." He gave an excellent outline of what is now expected and what will be expected of the teachers just a few years hence. He made it clear that to remain in the profession, one has to keep well informed and abreast of the rapid development now being made educationally.

We realize that it is not so much the school that counts as the kind of teachers we have in these schools. A good teacher is one of the greatest assets for good any community can have. With the building of the many nice school buildings, we must have teachers well trained to teach the children in these schools. The cost of building good buildings and equipping them is too heavy a burden to place teachers in them who are not well trained as teachers. We must get the best results out of our expenditures or we will have defeated the very purpose for which such buildings were erected. If you want promotion, merit it, and it will come to you as rapidly as you will show ability to do better work. Time spent as teacher does not count for anything unless you grow in the profession. The mere fact that you have taught for a long time does not mean that you have become efficient. Get out of the old rut and get in the push upward and onward or you will be left out of the running. You can't hide your interest in the work nor can you hide your lack of it. It is much easier to build a reputation that you will not appreciate than it is to build one that you will.

The mistakes you make spread like a wild fire; the good that you do is slow in its movement outward, but is sure to spread.

Next Saturday, March 13th, is the day for the county basketball tournament to be held at the Georgia Normal College. Most of the teams of the county have entered. We expect a good crowd and a good time. It would be an excellent idea to have the children bring lunch with them that they may spend the day out at the school. Let's have a good crowd. We will have lots of fun and a general good time.

Contracts have been given for the erection of the Stilson and Leefield school buildings. The Cooper Construction Co., of Augusta, secured the contracts. Work will be begun in the near future. Something real nice will be built. Buildings that the county will be proud of and especially the citizens of these progressive districts. They mean business. Watch 'em grow.

A section of the Lockhart militia district has petitioned the county board of education to annex them to the Rocky Ford consolidated school district. Rocky Ford district has built a nice brick building which is well equipped and have invited our Bulloch county folks to come over and share this good building which they have built and which will not cost the Bulloch folks a cent. That section to the north of the Nevils creek and Bay Gall creek and to the north of the public road via Dave Finch old store and the home of John W. Clark is the section they are inviting to join in with them. This gives these citizens a wonderful opportunity to get to a real school without its costing them anything for the building. Too, they say they will take our section tax free. If you citizens who are affected by this movement want something better, this is the chance of a life time. Think it over and decide definitely before the next meeting of the county board.

Citizens of the Alexander school district petitioned the board to annex them to the Portal consolidated school district. This petition was received the first Tuesday in March and the board annexed the Alexander school district with the Portal system that date.

Entered as second-class matter March 28, 1905, at the postoffice at Statesboro, Ga., under the Act of Congress March 3, 1879.

A "RIP-SNORTER."

The old-timer who is always wont to complain that we don't have any more winters "like we used to have," certainly can't find fault with the lack of cool atmosphere during the past two months. While it may not be properly classed as a real "rip-snorter," those who wanted an old-fashioned winter with plenty of frost in the air realize by this time that they have not been disappointed. For this community, like practically every other in the United States, has had an abundance of cold and the things that go with it. Even so, for the past few days, the weather has been especially hard on this winter, the state of New York alone recording more than 30 snowstorms and some of the heaviest in many years. The Middle West and far western sections have also been "firing up" heavier than is usually the case, and coal men ought to have profited enough to be satisfied for life.

Those who place their trust in the groundhog agree by now that, no matter how reliable he may have been in the past, he made a poor job of prophesying this time. For February brought to all parts of the country anything but spring-like weather, taking the month as a whole. But the winter season, if weather men are correct, is not yet at an end. They say that between now and the first of April we are apt to encounter more squally weather, even snow is predicted for practically every state except those south of the Mason-Dixon line. Garden planning is now in order, they say, but they advise that the planning be done indoors and the actual work of soil preparation be delayed a few weeks. And the doctors back them up with a warning against too premature donning of B. V. D.'s and other light or fluff garments. So govern yourself accordingly—or abide by the consequences.

About the only thing you can't buy on the installment plan these days is character.

Wonder why old Ananias didn't get a job drawing the pictures for seed and vegetable catalogues.

There is hope for every man except the one who thinks he knows all there is to know about raising chickens.

To discover how much a girl has learned at college you have to talk to her, not look at her report card.

It's so much easier to dictate letters. Then you can use fine big words you haven't the least idea how to spell.

We haven't much use for the self-made men. Most of them we've ever seen looked more like warnings than wholesome examples.

Why is it that the man who loves to stay at home is always married to a woman who loves to go somewhere seven nights in the week?

It is said the original forests of the United States contained five trillion feet of lumber, but who did the measuring is not reported.

An Oregon teacher was fired for marrying one of her pupils. Maybe she only wanted to be sure he wouldn't stay in at night and study.

Another mystery we never expect to see solved is why so many men do most of their worrying over things that are none of their business.

Next to losing your job after paying the first installment on the car, nothing hurts like raising your head up under the corner of a half-opened cupboard door.

FLIVVER SIGNS.

A friend who took a long auto tour during the past fall told us of encountering along the highways enough "funny flivver signs" to keep him in a good humor all during the trip. He couldn't remember all of them, but some remained in his memory, and that others in this community may join in the laugh, we append a few of the best ones seen written on the backs of cars driven by tourists: Baby, Here's Your Battle; Laugh, But I Paid Cash for Mine; Darling, I Am Growing Old; I Hate to My Rear End But Don't Strike it; Capacity, 5000 Gals.—One at a Time; The Truck Driver; It Ain't Gonna Run Much More; Sound Values—Can You Hear It? For Sale at \$1.98—While It Lasts; Sister, You'd Look Tough too Without Paint.

Her election to the Presidency of the Student Volunteer Union is a recognition of her personal and natural ability and reflects the value of the training given by the Y. W. C. NOTICE TO CONSUMERS OF WATER AND LIGHTS.

March 1st, 1926. I am directed by the Mayor and City Council to announce that, beginning today (March 1st, 1926), the rates for electric current will be 12 cents per kilowatt instead of 16 cents as in the past. The amount due for electric current in large quantities will be correspondingly decreased. But in all cases the bills will be payable on the first of the succeeding month and will be not, no discount. The water rates will not be changed but will be payable on the first of each month, less 10 per cent if paid on or before the 10th of the month. These instructions are mandatory and I have no alternative. Your water and lights will be cut off on the 11th of the month if your bill is not paid for the previous month. A notice will not be served on delinquents, since your contract with the city of Statesboro is sufficient to put you on notice that service will be discontinued if the bill is not paid by the 10th of the month.

WHEN THE STOMACH STRIKES—

THURSDAY'S HEALTH TALK By J. M. BURGESS, D. C.

When the stomach functions properly, all is well, but when the stomach strikes, all is decidedly otherwise. Perhaps the owner of that stomach can accommodate himself to reduced digestive capacity by eating little. Sometimes not. Even if the ill-effects of indigestion can be avoided by adhering to a restricted diet, the sufferer realizes that he is doing nothing to correct the condition troubling him, and so the trouble can be expected to grow worse.

When the stomach strikes, there is a major reason. That is the fact that it is not receiving sufficient motive power to carry on its work. There is interference with the stomach nerves, and this must be corrected by spinal adjustments before that stomach can get back to normal capacity.

His Stomach Trouble Corrected at His Spine! "In giving this testimonial to Chiropractic, it is for the benefit of some reader who may be suffering with Stomach Trouble, as I did for 12 or 15 months. Little did I think my spine had anything to do with my sickness. After many months of medicines, first one kind then another; dieting and fasting, X-Raying and Fluoroscopic, I continued to grow worse. I was advised to see a chiropractor. After my first adjustment (14 being taken in all) I felt better. Not once have I had any trouble since. I have regained my lost weight, eat anything and everything now. The chiropractor did in one month what others had failed to do for a year."—Everett H. Tompkins, Chiropractic Research Bureau, Statement No. 2161; sworn to before H. A. Anderson, Notary.

The lower nerve under the magnifying glass is pinched by a misaligned joint. Pinched nerves cannot transmit healthful impulses. Chiropractic adjusting removes the pressure. The upper nerve is free as nature intends.

LEROY COWART NAMED TO TAKE APPLICATIONS

The War Department has announced the appointment of Leroy Cowart of Statesboro as county representative for the Citizens Military Training Camps for the coming summer. Mr. Cowart states that he will receive a supply of application blanks for the training camps shortly and will be ready to pass these out to young men between the ages of 17 and 24 who might want to take a month's encampment in July at government expense.

Congress appropriates nearly \$3,000,000 annually to enable young men to develop their physical powers under proper supervision. Railroad fare, meals enroute and at camp, uniforms, laundry, athletic equipment and medical and dental treatment are furnished. Six vacancies only have been allotted Bulloch county and it is expected that they will all be taken by April 1st. Others may apply and if vacancies occur later they will be taken care of.

LEFT DEAD MULE ON LAND OF A NEIGHBOR

For leaving a dead mule on the lands of W. I. Lord, a neighbor, Leon Newsome was fined \$25 upon conviction in city court Monday. It transpired that Newsome had dumped the carcass of a dead mule on the land first having been warned by another neighbor, Jerre Hart, that Lord objected. Hart was the nearest resident to the dumping ground, and had entered protest in advance of the depositing of the carcass he said. Attorney for Newsome, J. M. Murphy, hinted at an offset, claiming that the dead animal had enriched the soil and therefore was a betterment instead of an injury.

RAILROAD MERGER MEANS MUCH TO SOUTH GEORGIA

Atlanta, Ga., March 8—Newspapers continue to comment on the recent acquisition of the Atlanta, Birmingham and Atlantic railroad by the Atlantic Coast Line, pointing out that it is of far-reaching import to the general interests of Georgia as well as the transportation realm.

As part of the great Walters system, the Atlanta, Birmingham and Atlantic will enjoy connections and resources of exceeding value. Heretofore it has depended, largely, on such traffic as its immediate territory afforded; but as a link between the Coast Line and the Louisville and Nashville, with their manifold out-reachings, north, south, east and west, it will draw from a wide zone of freight and passenger possibilities. This strengthened the A. P. & A. will mean more than ever to that region of Georgia, in the development of which it has already borne a major part. Thanks to the faith and the ability of those who have stood by the road during its struggle for existence, and particularly to Colonel B. L. Bugg, its receiver for the last five years, it has come through a vale of adversity to this high beginning of a great and prosperous career.

The A. B. & A., when placed in the hands of a receiver, was longed annually a million dollars; whereas today it is self-sustaining, as it has been for two years past. The success of Colonel Bugg and his associates in this demonstrating the road's capacity to earn and to thrive had much to do, no doubt, with its fortunate entrance into the Coast Line system.

LADIES VS. WOMEN

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois

"A DULT" classes for ladies and men," the bulletin announced, "I could not help asking myself the difference, if there is any, between a lady and a woman."

"No matter how intoxicated my mistress may become," one of the maids affirmed, "she is always a lady." Great praise, indeed! All of which reminds me of the ancient gag concerning the gentleman at the reception who asked his host:

"Who is that lady standing by the door?"

"That's no lady," the host replied, "that's my wife."

A servant girl of one of our neighbors in commenting upon the qualities and characters of a recent guest upon whom she had waited, remarked:

"She's no lady."

"Why" was the query.

"Well," was the reply, "she ain't got a lady's voice."

The old idea of a lady was one of exterior largely of manners and dress and employment. A gentleman was supposed to have soft hands and a pleasant, or a professional football player. His time was always his own.

A lady in similar fashion was a person—female of course—who sat pretty consistently in the drawing room. She, too, did not soil her hands with work she never wore cotton stockings, or went upon the streets without gloves, or carried a package home from the shop. It would not have been refined to trade; he would have scorned being a plumber or a dry goods merchant, or a professional football player.

To Enter Movies

Considered by many to be the most beautiful society girl in the national capital, Miss Betty Byrne, daughter of Mrs. Stanton Byrne, wife of Justice

Peck, is planning to forsake afternoon teas and bridge parties to seek a career in the movies, according to a recent announcement. Miss Byrne, a leader in the younger set of Washington, was chosen by President Coolidge as a typical beauty to represent the national capital at a convention in Texas a few years ago.

First--Reduced Prices

Early in January Chevrolet announced sweeping price reductions.

Then--The Improved Chevrolet

Shortly thereafter the improved Chevrolet was announced at these reduced prices. Instantly it met with such an increase in popularity that it became necessary to break all previous production records for January and February.

And Now--A Further Saving

Although the reduction in automobile taxes does not become officially effective for some time, the full amount of this reduction is now passed on to Chevrolet buyers. Thus Chevrolet again emphasizes that principle of value on which it has built the greatest success ever attained by any manufacturer of modern gear shift automobiles. Come in! See the improved Chevrolet! One ride will be a revelation.

COMMISSIONER TWITTY FORMS NEW SOCIETY

ASKS YOUTH OF GEORGIA TO JOIN IN PRESERVATION OF STATE'S GAME.

Atlanta, March 15.—The State Game and Fish Department of Georgia has taken the lead in a movement that is expected to become national by starting the organization among the boys of Georgia of an auxiliary body to aid in the protection of game and fish, as well as forest preservation. The organization has been named "The Loyal Legion of Nature Guardians" with all Georgia boys eligible to membership upon the fulfillment of certain easy requirements.

Members of this junior organization are required to take an oath, similar to the Boy Scout oath, pledging that they will do their best to protect all nature from neglect and cruelty. The members are not expected to become spies, nor to report violations of the Game and Fish laws, but merely to refrain from robbing bird nests, mistreating dumb animals, killing fish, starting forest fires, wastefully destroying wild flowers, or doing other things to abuse nature. On the other hand, they are asked to build bird houses and to encourage birds and useful animals to live as their neighbors.

The organization will be open, absolutely free of all cost, to all white boys in Georgia between the ages of eight and eighteen years, who are recommended for membership by their parents, guardians, teachers or pastors.

Commissioner Twitty pointed out that the spring nesting season of birds is now at hand in Georgia and that thousands of young birds can be saved by members of the Legion through the building of bird houses and the chasing away of stray cats and prowling dogs and other animals that prey upon young birds or destroy the eggs. He also called attention to the fact that the wood-pecker, yellow-hammer, bull bat, chimney sweep, black-bird, blue-bird and bird, white, thrasher, swallow, mocking-bird, martin and dozens of other birds found around nearly every Georgia home, destroy boll weevils and other insect pests and therefore, their protection will mean the saving of hundreds of thousands of dollars to the farmers of the state.

The fishing season will also open in the near future and the aid of the Nature Guardians in the protection of fish from drying streams, pollution of waters, dynamiting, fish traps and other illegal methods would be of great assistance in the re-stocking of Georgia streams.

Each member of the Legion will be furnished with an attractive badge free of all cost and also receive a handsomely designed certificate of membership. Members also will be furnished with a booklet of instructions and with pamphlets setting out the things they can do to aid in the protection of nature.

Commissioner Twitty states that he expects to enroll thousands of Georgia boys as Nature Guardians and that after a sufficient number have enlisted, he will allow them to organize their own units in each county throughout the state, on a plan to be worked out later by the Game and Fish Department. He also states that a similar Legion of Nature Guardians may be organized as soon as the boys' organization is perfected, and that he plans to conduct a contest among the Nature Guardians, offering several cash prizes to the boys in each congressional district who write the best letter describing some specific act of kindness done to a bird, fish or useful wild animal and telling why he became a member of the Legion.

All boys who desire to be Nature Guardians should write at once to the Nature Guardians Bureau, Department of Game and Fish, Atlanta, Ga., asking for information concerning membership. Commissioner Twitty states that he is especially anxious for a large Legion membership from the rural communities of the state and is appealing to all parents, school superintendents, teachers and others interested to encourage the boys of their counties to enlist in this great conservation movement.

Talk about "fuss and feathers," just wait until the government flies into the poultry trust.

LEGION MEMBERSHIP HAS EXCEEDED STANDARD SET

Rome, Ga., March 15.—Although a final check of results of the statewide membership campaign, which ended Saturday, has not been made, state officials of the Georgia Department of Game and Fish, expressed themselves as being confident that the goal of 12,000 Legionnaires throughout the state not only would be reached, but that that number might possibly be exceeded.

The membership drive is the first in a campaign which has for its objective the securing of the national Legion convention in 1928 for Atlanta, which will bring to Georgia's capital city in the fall of that year, between 50,000 and 75,000 visitors from all over the country.

The Georgia Department of the American Legion already has been pledged the support and co-operation of the delegates of the entire Southeast when the bid is made next October during the course of the national Legion meeting in Philadelphia, for Atlanta as the site for the 1928 gathering.

As a result of the drive which ended Saturday five new posts have been established at Jessup, Barnesville, Newman, Pelham and Butler, with 10 or more in the process of formation. Membership prizes which will be awarded at the state convention at Albany, June 17 and 18 and being hotly contested for. Eight bronze plaques, two to each of the four classes, will be given. Atlanta, Savannah and Columbus are in a close and hard fight for the honor of having the largest post in the state. The posts are all working hard and it would be impossible to predict the winner at this time. A majority of the 75 posts in the state are already over 100% of last year's membership.

The Legion in Georgia will reach the quota given by national headquarters and will march with the first ten departments in the parade at the national convention in Philadelphia on September 27th, as at the convention in Omaha, last October. Georgia will lead the South and perhaps other parts of the country.

At the broadcast program last Thursday evening over WSB, Homer Watkins accepted in behalf of the Georgia Department, the challenges of Virginia and North Carolina, who in a moment of weakness found the nerve to challenge the Empire State to any kind of a contest.

BANKERS CONVENTION MEET IN STATESBORO

The bankers from thirty-four counties in Southeast Georgia, comprising Group 1 of the Georgia Bankers' Association, will meet in Statesboro on Tuesday, April 6th.

The convention will be for one day only, and the bankers of Statesboro will be assisted by the Statesboro Chamber of Commerce in the entertainment of the visitors.

There are understood to be about 150 banks in the thirty-four counties. It is expected that practically every bank will have a representative, besides which there will be twenty-five or more of the prominent bankers and financiers from outside the district, bringing the number of guests to near the 200 mark.

Fred T. Lanier is chairman of the arrangement committee, representing the local bankers. Complete plans for the day have not been mapped out, but a tentative program includes a luncheon for the bankers and a ride through the county in the afternoon.

The Chamber of Commerce will participate in the occasion, but committee from that organization will probably be asked to aid the local bankers in the handling of the visitors. The full program will be worked out by the committee in advance of the occasion, and those who are needed will be called upon by the chairman of the committee.

COUNTY SCHOOL NEWS

The Bulloch county schools' basketball tournament was a howling success. The tournament of itself was a wonderful thing, and the howling success. Saturday was one of the windiest and coldest days of the winter. All day, the winds blew a steady gale. It was difficult for the players to be accurate in their play. And so uncomfortable that the spectators were very uncomfortable. There were several hundred present for the occasion. Had it not been for this unfavorable day, we would have had many more in attendance.

We were given courteous consideration by the management of the Georgia Normal School where the tournament was held. They furnished the courts and girls' referees besides assisting in working out details and otherwise helping to make the day pleasant and enjoyable.

Many of the boys and girls taking part in this tournament will in the near future be students of the Georgia Normal School. It does not take many years for young folks to finish high school and get ready for normal or college work.

The following schools entered boys basketball: Palmetto, Middle Ground, Eula, Nevila and Warehatch. Register won first place and Eula won second place in the boys' tournament.

Misses Bruce and Trussell were referees for the girls and Messrs. Claude Cowart and R. P. Womack for the boys.

B. R. OLLIFF.

The regular monthly services will be held at Clite Baptist church next Sunday and Sunday at the usual hours.

YOUNG MARK IMPROVES FOLLOWING BAD SMASH

Gerald Marx, a young man who, with his wife and father, recently came from Pennsylvania to Bulloch county to engage in farming, is improving in a Savannah hospital where he was carried several days ago following an accident which nearly cost him his life, when a tractor with which he was working on his farm overturned and pinned him beneath.

The machine, which weighed approximately 9,000 pounds, pinned him in a position so that he could not be extricated until his father and an assistant on the farm dug beneath and released him. He was under the machinery for half an hour or longer, and collapsed when extricated. He was brought to Statesboro and, temporarily, released to his father, after which he was carried to Oglethorpe sanitarium, Savannah.

The lower part of his body was so badly crushed that his recovery was in regard to it in grave doubt for several days. He is now believed to be out of danger.

THE MARXES. Marx are owners of a tract of land on Mill Creek purchased from E. C. Freeman. They have been preparing it for truck farming and have bought considerable improved machinery for their work.

FIRST DISTRICT EDITORS HOLD TRI-YEARLY MEET

Waynesboro, Ga., March 15.—The regular tri-yearly meeting of the First District Press Association was held here today with the True Citizen. The visiting editors assembled at the sun parlor of the Anthony Wayne hotel for their business meeting which was presided over by R. E. L. Majors, of Claxton, and L. M. Rhoden of Keldville acted as secretary in the absence of the secretary, Dan G. Bickers. After a discussion of the problems confronting the editors, the meeting adjourned to the room after which the meeting adjourned.

Among the visiting editors who were present were T. J. Hamilton of the Augusta Chronicle, who made an excellent address; Mrs. Virginia Price of Louisville, who also told about the coming of the state association to Louisville this summer. Prof. Jack Lance made the welcome address and was responded to by Editor Majors, who acted as toastmaster. Mrs. R. L. Miller, president of the local W. C. T. U., made a pleasing appeal to the newspaper men for law enforcement. Editor Roy Neal, of the Savannah News, told the editors of his new home. Pete Donaldson, secretary of the Chamber of Commerce of Statesboro, Will Walters of the Manufacturer and Editor Rhoden made interesting talks.

Editor R. M. Martin of Hinesville, was elected president, Editor Rhoden, vice president, and Editor Bickers, secretary. The next meeting place will be in Springfield in August with Editor H. B. Moore of the Springfield Herald.

The coming of the First District editors at this time was turned into a birthday celebration of the True Citizen and its editor who celebrated their birthdays on Saturday, each having finished their 44th year. Four generations of Sullivans have given their work to the production of the True Citizen, which is the only established place of business in the city operating continuously through these years under the same management and in the same place of business.

COUNTY AGENTS' NOTES.

It is hoped that we will have a large number of farmers to enter the five-acre corn contest. Not less than \$100 will be offered in local prizes, announcement of which will be made next week. Those wishing to enroll in the county contest will see county agent as soon as possible.

Mrs. Hatch called on the Russian consul. His questions were evaded, and when he became insistent the consul pointedly changed the subject. The merchant's father advised him to keep the episode to himself and he did so until he heard the recent anecdote, attributed to the German court doctor of that day which seemed to corroborate the implications of his own experience.
